INTRODUCTION

I am a Front-end developer in love with programming and passionate about creating an amazing user-experience. I have a strong knowledge of the inner workings of the web and the ability to bring websites to life from a mock-up to a fully functional web app.

EXPERIENCE

Front-end Developer, QA Tester & Critical Support Administrator at Class It Outsourcing
03/2019-10/2023

Developing and designing webpages maintaining high performance and adaptive modules.
Write clean, well structured maintainable code that conforms with accepted standards and make sure that it is practical and aesthetic at the same time. Manual & automatic Testing Websites and IOS Applications, using Postman & Selenium. Writing testing scenarios and documentations. Monitoring, backup administration(Veeam), configuration, introduction of equipment for Windows and Linux servers.
Technologies used:
PHP, HTML, JavaScript, CSS, Visual Studio, CSS3, GIT, HTML5, Bootstrap, Angularjs, ReactJS, Postman, Selenium;

QA Testing at PayScout
06/2017-12/2019

Testing credit cards, using Selenium to make manual testing into automatic.
Technologies used: Selenium and Postman;

Game Tester at Ea Games
02/2016-04/2017

Testing video games on ps3, ps4, XBOX, pc and report the bugs.

COOL THINGS I MADE
