INTRODUCTION

I am a Front-end developer in love with programming and passionate about creating an amazing user-experience. I have a strong knowledge of the inner workings of the web and the ability to bring websites to life from a mock-up to a fully functional web app.

EXPERIENCE

Front-end Developer & QA Tester at *Class It Oursourcing*
03/2018-10/2023

Developing and designing webpages maintaining height performance and adaptive modules.
Write clean, well structured maintainable code that conforms with accepted standards and make sure that it is practical and aesthetic at the same time. Manual & automatic Testing Websites and IOS Applications, using Postman & Selenium. Writing testing scenarios and documentations and fix the bugs.
Technologies used:
PHP, HTML, JavaScript, CSS, Visual Studio, CSS3, GIT, HTML5, Bootstrap, Angularjs, ReactJS, Postman, Selenium;

QA Testing at *PayScout*
06/2014-12/2017

Testing credit cards, make transactions, use Selenium to make manual testing into automatic, compare the results and fix the errors.
Technologies used: JavaScript, Selenium, Postman;

Game Tester at *Ea Games*

Testing video games on ps3, ps4, XP0, pc, phone.

02/2012-04/2014

COOL THINGS I MADE

sigurantapenet   Presentation website build with HTML, CSS, JavaScript and React.

SKILLS

HTML/CSS	JavaScript	React	Postman	Selenium
