**Faculty of Philosophy**
University of Bucharest · 2011 - 2015

**Fashion Design**
"Nicolae Tonitza" Fine Arts High School · 2007 - 2011

## LANGUAGES

- Romanian - Native
- English - Professional working proficiency

## PROFESSIONAL EXPERIENCE

### QA Analyst
Oct 2024 - Present

**Pionix Marketing Solutions** · Remote, Romania

- Execute manual and automated testing for responsive healthcare products spanning patient intake, member portals and operational workflows.
- Build and maintain Cypress coverage in JavaScript, with emphasis on stable end-to-end and regression scenarios.
- Validate APIs and integrations with Postman, document defects clearly and collaborate with developers through resolution and retesting.
- Assess functionality, usability, cross-browser behaviour and high-impact user journeys on desktop and mobile.

Cypress · Postman · JavaScript · MySQL · Git · HubSpot · Konektive · OpenSearch · Twilio

### QA Tester · Jr. Front-End Developer · Critical Support
Mar 2022 - Oct 2023

**StarTech Team** · Remote, Bucharest

- Performed manual and automated testing for websites and iOS applications, creating test scenarios, technical documentation and actionable bug reports.
- Tested the Enjoee event application and contributed to SigurantaPeNet, an online learning platform with courses, quizzes and phishing simulations.
- Used Selenium and Postman for QA, while front-end work strengthened root-cause analysis across HTML, SCSS, Laravel and JavaScript implementations.
- Supported Windows/Linux systems, backups and monitoring, bringing infrastructure awareness into application testing.

Selenium · Postman · HTML5 · CSS / SCSS · JavaScript · React · Laravel · npm · Git · iOS

### Critical Support Administrator
Mar 2019 - Feb 2020

**StarTech Team** · On-site, Bucharest

- Monitored and administered Windows and Linux environments and configured backup processes, including Windows Backup and Veeam.
- Investigated incidents methodically, documented resolutions and supported reliable day-to-day systems operation.

Windows · Linux · Veeam · Nagios · Monitoring

### Software QA Tester
May 2017 - Dec 2019

**PayScout** · On-site, Bucharest

- Tested payment and credit-card functionality, converting repeatable manual checks into Selenium automation.
- Used Selenium and Postman to validate critical transaction flows and report reproducible defects.

Payments · Selenium · Postman

### QA Tester
Feb 2016 - Mar 2017

**Electronic Arts (EA)** · On-site, Bucharest

- Tested game functionality on PS3, PS4, Xbox One and PC, identifying bugs, glitches and inconsistencies.
- Collaborated with development teams through clear reproduction steps, verification and regression testing.

Selenium · Postman · PS3 · PS4 · Xbox One · PC
